

## Patrick Cheng

CEO, NavInfo

As one of the founders of NavInfo, Patrick Cheng has experience in technology, marketing, sales and management through taking responsibility of various departments over the last 13 years.

As CEO of NavInfo since 2015, he has been pushing the globalization of the company by enhancing global partnerships and fostering extensive R&D in the fields of autonomous driving and implementing “turnkey solutions” with hardware and software for telematics.

Prior to becoming CEO, Cheng was COO of NavInfo and played a key role in re-organizing the structure of the company and shaping its new strategic position. Cheng has also previously developed and managed NavInfo’s marketing and sales operations and expanded the business to European and North American clients.
