

HERE Location Services

# Places

Making it fast and easy to search, discover and go anywhere

Hundreds of millions of point addresses and places worldwide

Flexible and relevant search & discovery

User interactions to collect, share and add places

The **Places component**, part of **HERE Location Services**, provides the industry's most relevant and flexible search experience, empowering you to find, learn more about, interact with, and go to hundreds of millions of places worldwide. With Places, you can support critical business decisions with information about the geo-location of customers, assets or events.

Sourced from a global data set of hundreds of millions POIs and Point Addresses, the **Places component** focuses on solving the search and discovery challenges of enterprises today. Intuitive one-box search, robust results and other advanced tools enable you to interact with the world on a deeper level—collecting, sharing and adding places that mean the most to you.
